

INTRINSICALLY SAFE TWO WAY RADIO BATTERIES

FACTORY MUTUAL APPROVED

INTRINSICALLY SAFE

Multiplier's Intrinsically Safe batteries are ideal for hazardous locations or any industry that involves

- * volatile gases * fires and chemical spills such as petroleum refining
- * natural gas manufacturing * chemical production * fire fighting
- * production of a product that emits airborne dust such as coal and mining, or a grain silo.

Choose from a wide selection of FM Approved Intrinsically Safe batteries for various M/A-COM/Ericsson and Motorola radio models.

Multiplier's intrinsically safe/non-incendive batteries are approved by the Factory Mutual Research Corp in meeting the same strict standards as the OEM
